

NOTICE TO TIMES EVENT CONTESTANTS

The ICA Board of Directors voted to amend the slack entry option.

Beginning immediately (07/11/2017) you may now enter slack as a first preference but then must enter a performance as your second preference. Slack or out is NOT an option. In addition all performances must fill before slack will be held. A performance is typically 8-12 with some discretion. For example we might take 15 in a performance to avoid holding slack for 3 runs.

If you pre entered through enterup.biz you can change your preference options up until entries close.

Also remember you can see the preference count in enterup.biz prior to the books closing so that might indicate to you if there would or would not be a slack possible to help you while entering.
